

Report on the Annual Basic Benefits Valuation of the
School Employees' Retirement System of Ohio
Prepared as of June 30, 2009

# Cavanaugh Macdonald 

CONSULTING,LLC
November 13, 2009
Board of Trustees
School Employees Retirement System
Of Ohio
300 East Broad Street
Suite 100
Columbus, OH 43215-3746
Dear Members of the Board:
Presented in this report are the results of the annual actuarial valuation of the basic benefits provided under the School Employees Retirement System of Ohio (SERS). The purpose of the valuation was to measure the System's funding progress and to determine the required employer contribution rates for the fiscal year beginning July 1, 2009.

The date of the valuation was June 30, 2009.
The valuation was based upon data, furnished by the Executive Director and the SERS staff, concerning active, inactive and retired members along with pertinent financial information. The complete cooperation of the SERS staff in furnishing materials requested is hereby acknowledged with appreciation.

Your attention is directed particularly to the summary of results on page 1 and the comments on page 6.
Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,

Thomas J. Cavanaugh, FSA, FCA, EA, MAAA
Chief Executive Officer

John J. Garrett, ASA, FCA, MAAA
Principal and Consulting Actuary

## REPORT ON THE ANNUAL VALUATION OF THE

 SCHOOL EMPLOYEES RETIREMENT SYSTEM OF OHIO
## PREPARED AS OF JUNE 30, 2009

## SECTION I - SUMMARY OF PRINCIPAL RESULTS

1. This report, prepared as of June 30, 2009, presents the results of the annual actuarial valuation of the basic benefits provided under the System, including pension, Medicare Part B reimbursement and post-retirement death benefits. For convenience of reference, the principal results of the valuation and a comparison with the preceding year's results are summarized in the following table.

SUMMARY OF PRINCIPAL RESULTS

|  | June 30, 2009 | June 30, 2008 |
| :---: | :---: | :---: |
| Active members included in valuation |  |  |
| Number | 125,465 | 124,370 |
| Annual Compensation | \$2,787,390,954 | \$2,651,800,981 |
| Retirees |  |  |
| Number | 65,757 | 64,818 |
| Annual allowances | \$693,838,988 | \$652,373,571 |
| Deferred Vesteds |  |  |
| Number | 11,911 | 11,257 |
| Annual deferred allowances | \$39,186,253 | \$35,970,026 |
| Assets (net of Health Care Assets) |  |  |
| Market related actuarial value | \$9,836,220,633 | \$11,372,453,979 |
| Market value | \$8,134,107,324 | \$10,793,470,372 |
| Unfunded Accrued Liability | \$4,745,756,614 | \$2,689,440,386 |
| Funded Ratio |  |  |
| Pension and Post-retirement Death Benefits | 68.37\% | 82.03\% |
| Medicare Part B | 31.25\% | 36.69\% |
| Employer Contribution Rate |  |  |
| Normal | 3.86\% | 4.08\% |
| Accrued liability | $\underline{9.68}$ | $\underline{5.76}$ |
| Total | 13.54\% | 9.84\% |
| Accrued liability amortization period (years) | 30 | 28 |

2. The board has set a total contribution rate of $24 \%$ of payroll; $14 \%$ from employers and $10 \%$ from employees. Contributions in excess of those required to support the basic benefits are allocated to retiree health care benefit funding.
3. The valuation balance sheet showing the results of the valuation is given in Schedule A.
4. Comments on the valuation results are given in Section IV, comments on the experience and actuarial gains during the valuation year are given in Section V , and the rates of contribution payable by employers are given in Section VI.
5. There were no changes in actuarial assumptions or methods since the last valuation.
6. Schedule B of this report presents the development of the actuarial value of assets. Schedule C details the actuarial assumptions and methods employed. Schedule D gives a summary of the benefit and contribution provisions of the plan.
7. All information in this report for years prior to the year ended June 30, 2008 were provided by the System's previous actuary and the accuracy of that information is the responsibility of that actuary.

## SECTION II - MEMBERSHIP DATA

Data regarding the membership of the System for use as a basis for the valuation were furnished by the System's office. The following tables summarize the membership of the system as of June 30, 2009 upon which the valuation was based. Detailed tabulations of the data are given in Schedule E.

## Active Members

|  |  | Group Averages |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Number | Payroll | Salary | Age | Service |
| 125,465 | $\$ 2,787,390,954$ | $\$ 22,216$ | 47.9 | 9.5 |

The total number of active members includes 77,215 vested members and 48,250 non-vested members.

The following tables show a six-year history of active member valuation data.

SCHEDULE SERS ACTIVE MEMBER VALUATION DATA

| Valuation <br> Date | Number | Annual <br> Payroll | Annual <br> Average Pay | \% Increase in <br> Average Pay |
| :---: | :---: | ---: | :---: | :---: |
| $6 / 30 / 2004$ | 123,139 | $\$ 2,394,068,438$ | $\$ 19,442$ | $3.3 \%$ |
| $6 / 30 / 2005$ | 122,855 | $2,452,554,365$ | 19,963 | 2.7 |
| $6 / 30 / 2006$ | 123,266 | $2,553,331,924$ | 20,714 | 3.8 |
| $6 / 30 / 2007$ | 123,013 | $2,603,300,211$ | 21,163 | 2.2 |
| $6 / 30 / 2008$ | 124,370 | $2,651,800,981$ | 21,322 | 0.8 |
| $6 / 30 / 2009$ | 125,465 | $2,787,390,954$ | 22,216 | 4.2 |

The following table shows the number and annual retirement allowances payable to retired members and their beneficiaries on the roll of the Retirement System as of the valuation date as well as certain group averages.

## Retired Lives

|  |  |  | Group Averages |  |
| :--- | ---: | ---: | ---: | ---: |
| Type of Benefit Payment | Number | Annual Benefits | Benefit | Age |
| Retirees and Beneficiaries | 56,160 | $\$ 592,967,502$ | $\$ 10,559$ | 75.0 |
| Disability | 5,310 | $72,251,580$ | 13,607 | 64.2 |
| Survivors | 4,287 | $28,619,906$ | 6,676 | 70.8 |
| Total in SERS | 65,757 | $\$ 693,838,988$ | $\$ 10,552$ | 73.9 |

This valuation also includes 87,180 inactive members eligible for a contribution refund only (including 46,168 members not reported in the data files who had completed one or more years of service before terminating). Their contributions totaled $\$ 117,435,716$ as of June 30, 2009. There were also 11,911 terminated vested members with annual deferred pension benefits of $\$ 39,186,253$. Included in the "Retiree" numbers in the above table are 8,657 re-employed retirees with account balances of $\$ 49,824,019$ (including employer contributions and interest), 237 re-retirees receiving only an annuity from their contributions and their employers' matching contributions, and 272 re-retirees receiving such annuities in addition to their regular pension benefits. The sum of the annuity payments attributable to these re-retirees is $\$ 1,570,416$.

## SECTION III - ASSETS

1. As of June 30, 2009 the total market value of assets amounted to $\$ 8,510,566,546$. All figures include the combined Pension Trust Fund, Medicare B Fund, Death Benefit Fund and Health Care Fund but exclude the QEBA Fund.

| Asset Summary Based on Market Value |  |  |  |
| :--- | :--- | ---: | ---: |
| $(1)$ | Assets at June 30, 2008 | $\$$ | $11,186,151,103$ |
| $(2)$ | Contributions and Misc. Revenue |  | $844,329,411$ |
| $(3)$ | Investment Gain (Loss) |  | $(2,546,908,294)$ |
| $(4)$ | Benefit Payments |  |  |
| $(5)$ | Assets at June 30, 2009 |  |  |
| $(1)+(2)-(3)+(4)$ | $\$$ | $8,510,566,546$ |  |
| $(6)$ | Annualized Rate of Return* |  | $(22.9) \%$ |

2. The four-year smoothed market related actuarial value of assets used for the current valuation was $\$ 9,836,220,633$. Schedule $B$ shows the development of the actuarial value of assets as of June 30, 2009. Again all figures include the combined Pension Trust Fund, Medicare B Fund, Death Benefit Fund and Health Care Fund but exclude the QEBA Fund.

| Asset Summary Based on Actuarial Value |  |  |  |
| :---: | :---: | :---: | :---: |
| (1) | Assets at June 30, 2008 | \$ | 11,765,134,710 |
| (2) | Contributions and Misc. Revenue |  | 844,329,411 |
| (3) | Investment Gain (Loss) |  | $(4,390,213)$ |
| (4) | Benefit Payments |  | $(973,005,674)$ |
| (5) | Assets at June 30, 2009 Before Application of Corridor $(1)+(2)-(3)+(4)$ | \$ | 11,632,068,234 |
| (6) | Annualized Rate of Return* |  | (0.0) \% |
| (7) | Additional Loss Recognized Due to Corridor |  | $(1,419,388,379)$ |
| (8) | Assets at June 30, 2009 After Application of Corridor $(5)+(7)$ | \$ | 10,212,679,855 |
| (9) | Annualized Rate of Return* |  | (12.2) \% |

*Based on the approximation formula: $I /[0.5 \times(A+B-I)]$, where
I = Investment Gain (Loss)
A = Beginning of year asset value
$B=$ End of year asset value

## SECTION IV - COMMENTS ON VALUATION

Schedule A of this report contains the valuation balance sheet which shows the present and prospective assets and liabilities of the System as of June 30, 2009.

1. The total valuation balance sheet on account of retirement benefits shows that the System has total prospective retirement benefit liabilities of $\$ 17,730,435,580$, of which $\$ 7,273,340,500$ is for the prospective benefits payable on account of present retired members and beneficiaries of deceased members, $\$ 485,669,609$ is for the prospective benefits payable on account of present inactive members, and $\$ 9,971,425,471$ is for the prospective benefits payable on account of present active members. Against these retirement benefit liabilities the System has a total present actuarial value of assets of $\$ 9,836,220,633$ as of June 30,2009 . The difference of $\$ 7,894,214,947$ between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of retirement benefits. Of this amount, $\$ 2,338,415,033$ is the present value of future contributions expected to be made by members, and the balance of $\$ 5,555,799,913$ represents the present value of future contributions payable by the employers.
2. The employers' contributions to the System on account of retirement benefits consist of normal contributions, accrued liability contributions and contributions for administrative expenses. The valuation indicates that employer normal contributions at the rate of $3.59 \%$ of payroll for basic pension benefits, $0.02 \%$ of payroll for post-retirement death benefits, and $0.25 \%$ of payroll for Medicare Part B benefits are required to provide the benefits of the System for the average member of SERS.
3. Prospective employer normal contributions on account of retirement benefits at the above rates have a present value of $\$ 810,043,300$. When this amount is subtracted from $\$ 5,555,799,913$, which is the present value of the total future contributions to be made by the employers, there remains $\$ 4,745,756,614$ as the amount of future accrued liability contributions.
4. For pension benefits, it is recommended that the accrued liability contribution rate payable by the State on account of retirement benefits be set at $9.15 \%$ of payroll. For post-retirement death benefits, it is recommended that the accrued liability contribution rate payable by the employers on account of retirement benefits be set at $0.02 \%$ of payroll. Finally for Medicare Part B benefits, it is recommended that the accrued liability contribution rate payable by the employers on account of retirement benefits be set at $0.51 \%$ of payroll. These rates are sufficient to amortize the unfunded accrued liability of $\$ 4,745,756,614$ over 30 years based on the assumption that the aggregate payroll for SERS members will increase by $4.00 \%$ each year.

## SECTION V - DERIVATION OF EXPERIENCE GAINS AND LOSSES

Actual experience will never (except by coincidence) match exactly with assumed experience. It is assumed that gains and losses will be in balance over a period of years, but sizable year to year fluctuations are common. Detail on the derivation of the experience gain (loss) for the year ended June 30, 2009 is shown below (\$ millions).

## Experience Gain/(Loss)

| (1) | UAAL* as of 6/30/08 | \$ | 2,689.4 |
| :---: | :---: | :---: | :---: |
| (2) | Normal cost from last valuation |  | 373.4 |
| (3) | Contributions |  | 586.9 |
| (4) | Interest accrual: $\left[(1)+(2)-(3)^{\star} .5\right] \times .08$ |  | 221.5 |
| (5) | Expected UAAL before changes: $(1)+(2)-(3)+(4)$ | \$ | 2,697.4 |
| (6) | Change due to plan amendments |  | 0.0 |
| (7) | Change due to new actuarial assumption or methods |  | 0.0 |
| (8) | Expected UAAL after changes: $(5)+(6)+(7)$ | \$ | 2,697.4 |
| (9) | Actual UAAL as of 6/30/09 | \$ | 4,745.8 |
| (10) | Gain/(loss): (8) - (9) | \$ | (2,048.4) |
| (11) | Accrued liabilities as of 6/30/08 | \$ | 14,061.9 |
| (12) | Gain/(loss) as percent of actuarial accrued liabilities at start of year |  | (14.6\%) |

# ANALYSIS OF FINANCIAL EXPERIENCE 

## Gains \& Losses in Accrued Liabilities <br> Resulting from Difference Between Assumed Experience \& Actual Experience (\$ Millions)

| Type of Activity | \$ Gain (or Loss) For Year Ending 6/30/09 |  |
| :---: | :---: | :---: |
| Age \& Service Retirements. If members retire at older ages, there is a gain. If younger ages, a loss. | \$ | (50.8) |
| Disability Retirements. If disability claims are less than assumed, there is a gain. If more claims, a loss. |  | (28.7) |
| Death-in Service Benefits. If survivor claims are less than assumed, there is a gain. If more claims, there is a loss. |  | (0.6) |
| Withdrawal From Employment. If more liabilities are released by withdrawals than assumed, there is a gain. If smaller releases, a loss. |  | (11.9) |
| Pay Increases. If there are smaller pay increases than assumed, there is a gain. If greater increases, a loss. |  | 107.5 |
| New Members. Additional accrued liability will be reflected as a loss. |  | (50.4) |
| Investment Income. If there is a greater investment income than assumed, there is a gain. If less income, a loss. |  | (2,265.2) |
| Death After Retirement. If retired members live longer than assumed, there is a loss. If not as long, a gain. |  | 51.8 |
| Other. Miscellaneous gains and losses resulting from changes in valuation software, data adjustments, timing of financial transactions, etc. |  | 200.1 |
| Gain (or Loss) During Year From Financial Experience | \$ | (2,048.4) |
| Non-Recurring Items. Adjustments for plan amendments, assumption changes and method changes |  |  |
|  |  | 0.0 |
| Composite Gain (or Loss) During Year | \$ | (2,048.4) |

## SECTION VI - REQUIRED CONTRIBUTION RATES

The valuation balance sheet gives the basis for determining the percentage rates for contributions to be made by employers to the Retirement System. The following tables show the rates of contribution payable by employers as determined from the present valuation for the 2008/2009 fiscal year.

## Required Contribution Rates

| Contribution for | Benefits | Retirement Death Benefits | Medicare <br> Part B | Total |
| :---: | :---: | :---: | :---: | :---: |
| A. Normal Cost: |  |  |  |  |
| (1) Service retirement benefits | 8.12\% |  |  |  |
| (2) Disability benefits | 1.34 |  |  |  |
| (3) Survivor benefits | 0.24 |  |  |  |
| (4) Refunds | 3.89 |  |  |  |
| (4) Total | 13.59\% | 0.02\% | 0.25\% | 13.86\% |
| B. Member Contributions | 10.00\% | 0.00\% | 0.00\% | 10.00\% |
| C. Employer Normal Cost: [A(4) - B] | 3.59\% | 0.02\% | 0.25\% | 3.86\% |
| D. Unfunded Actuarial Accrued Liability Contributions | 9.15\% | 0.02\% | 0.51\% | 9.68\% |
| E. Total Recommended Employer Contribution Rate:[C+D] | 12.74\% | 0.04\% | 0.76\% | 13.54\% |

## SECTION VII - ACCOUNTING INFORMATION

Governmental Accounting Standards Board Statements 25 and 27 set forth certain items of required supplementary information to be disclosed in the financial statements of the System and the employer. One such item is a distribution of the number of employees by type of membership, as follows:

NUMBER OF ACTIVE AND RETIRED MEMBERS AS OF JUNE 30, 2009

| GROUP | Total |
| :--- | :---: |
| Retirees and beneficiaries currently <br> receiving benefits | 65,757 |
| Terminated employees entitled to benefits <br> but not yet receiving benefits | 11,911 |
| Active Members | 125,465 |
| Total | 203,133 |

Another such item is the Schedule of Funding Progress for pension, post-retirement death and Medicare Part B benefits separately as shown in the following table.

## SCHEDULE OF FUNDING PROGRESS

(In Millions)

| Actuarial Valuation Date | Value of Plan Assets (a) | Actuarial Accrued Liability (AAL) Entry Age (b) | Unfunded AAL (UAAL) ( $b-a$ ) |  | Covered <br> Payroll <br> (c) | UAAL as a Percentage of Covered Payroll (b-a)/ (c) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Pension and Post-retirement Death Benefits |  |  |  |  |  |  |
| 6/30/2004 | \$ 8,550 | \$ 10,953 | \$ 2,403 | 78.1\% | \$ 2,394 | 100.4\% |
| 6/30/2005 | 8,780 | 11,659 | 2,948^ | 75.3 | 2,453 | 120.2 |
| 6/30/2006 | 9,423 | 12,327 | 2,974^ | 76.4 | 2,553 | 116.5 |
| 6/30/2007 | 10,513 | 13,004 | 2,562^ | 80.8 | 2,603 | 98.4 |
| 6/30/2008 | 11,241 | 13,704 | 2,463 | 82.0 | 2,873 | 85.7 |
| 6/30/2009 | 9,723 | 14,221 | 4,498 | 68.4 | 2,787 | 161.4 |
| Medicare Part B |  |  |  |  |  |  |
| 6/30/2004 | \$ 117 | \$ 298 | \$ 181 | 39.3\% | \$ 2,394 | 7.6\% |
| 6/30/2005 | 113 | 302 | 189 | 37.4 | 2,453 | 7.7 |
| 6/30/2006 | 119 | 300 | 181^ | 39.7 | 2,553 | 7.1 |
| 6/30/2007 | 127 | 299 | $172^{\wedge}$ | 42.5 | 2,603 | 6.6 |
| 6/30/2008 | 131 | 358 | 227 | 36.7 | 2,873 | 7.9 |
| 6/30/2009 | 113 | 361 | 248 | 31.3 | 2,787 | 8.9 |

^ After change in calculation methods of health care assets, resulting in a $\$ 70$ million future liability due to Pension plans by the Health Care Fund

The information presented in the required supplementary schedules was determined as part of the actuarial valuation at June 30, 2009. Additional information as of the latest actuarial valuation follows.

| Valuation date | $6 / 30 / 2009$ |
| :--- | :---: |
| Actuarial cost method | Entry Age |
| Amortization | Level Percent Closed |
| Remaining amortization period | 30 years |
| Asset valuation method | 4 Year Smoothed Market |
| Actuarial assumptions |  |
| Investment rate of return* | $8.00 \%$ |
| $\quad$ * Includes price inflation at | $3.50 \%$ |
| Projected salary increases^ | $4.50 \%-24.75 \%$ |
| ^ Includes wage inflation at | $4.00 \%$ |
| Cost-of-living adjustment | $3.00 \%$ |

## Schedule of Employer Contributions

| Year Ended | Annual Required <br> Contribution | Percentage <br> Contributed |
| :---: | :---: | :---: |
| Pension and Post-retirement Death Benefits |  |  |

## SCHEDULE A

## Valuation Balance Sheet and Solvency Test

The following valuation balance sheet shows the assets and liabilities of the retirement system as of the current valuation date of June 30, 2009 and, for comparison purposes, as of the immediately preceding valuation date of June 30, 2008. The items shown in the balance sheet are present values actuarially determined as of the relevant valuation date.

## VALUATION BALANCE SHEETS SHOWING THE ASSETS AND LIABILITIES OF THE SCHOOL EMPLOYEES RETIREMENT SYSTEM OF OHIO

|  |  | June 30, 2009 |  | June 30, 2008 |
| :---: | :---: | :---: | :---: | :---: |
| ASSETS |  |  |  |  |
| Current actuarial value of assets | \$ | 9,836,220,633 |  | 11,372,453,979 |
| Prospective contributions |  |  |  |  |
| Member contributions | \$ | 2,338,415,033 | \$ | 2,444,355,484 |
| Employer normal contributions |  | 810,043,300 |  | 677,333,616 |
| Unfunded accrued liability contributions |  | 4,745,756,614 |  | 2,689,440,386 |
| Total prospective contributions | \$ | 7,894,214,947 |  | 5,811,129,486 |
| Total assets | \$ | 17,730,435,580 |  | 17,183,583,465 |
| LIABILITIES |  |  |  |  |
| Present value of benefits payable on account of present retired members and beneficiaries | \$ | 7,273,340,500 | \$ | 6,872,966,716 |
| Present value of benefits payable on account of active members |  | 9,971,425,471 |  | 9,863,419,679 |
| Present value of benefits payable on account of inactive and deferred vested members |  | 485,669,609 |  | 447,197,070 |
| Total liabilities |  | 17,730,435,580 |  | 17,183,583,465 |

Included in the retiree liability shown above is the liability attributable to re-retiree annual annuity payments. Such liability amounts to \$11,465,828 for 2009 and \$10,683,429 for 2008.

The following tables provide the solvency test for SERS members.

## Solvency Test

| Valuation Date | Aggregate Accrued Liabilities For |  |  |  | Portion of Accrued Liabilities Covered by Reported Asset |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | (1) <br> Active <br> Member Contributions | (2) <br> Retired <br>  <br> Beneficiaries | (3) <br> Active Members (Employer Financed Portion) | Actuarial Value of Assets | (1) | (2) | (3) |
| 6/30/2004* | \$ 1,785 | \$ 5,173 | \$ 4,293 | \$ 8,667 | 100.0\% | 100.0\% | 39.8\% |

| 74 | 1.557 | . 917 | . 825 | . 608 |

| Annual Rates of Service Retirements |  |  |
| :---: | :---: | :---: |
| Age | Male | Female |
| 50 | $40.0 \%$ | $33.0 \%$ |
| 55 | 25.0 | 25.0 |
| 60 | 10.0 | 20.0 |
| 62 | 15.0 | 15.0 |
| 65 | 25.0 | 25.0 |
| 70 | 20.0 | 20.0 |
| 75 | 100.0 | 100.0 |

SALARY INCREASES: Representative values of the assumed annual rates of salary increases are as follows:

|  | Annual Rates of |  |  |
| :---: | :---: | :---: | :---: |
| Service | Merit \& Seniority | Base (Economy) | Increase Next Year |
| 0 | $20.75 \%$ | $4.00 \%$ | $24.75 \%$ |
| 1 | 13.25 | 4.00 | 17.25 |
| 2 | 10.75 | 4.00 | 14.75 |
| 3 | 8.75 | 4.00 | 12.75 |
| 4 | 7.75 | 4.00 | 11.75 |
| 5 | 5.75 | 4.00 | 9.75 |
| 6 | 4.75 | 4.00 | 8.75 |
| 7 | 3.75 | 4.00 | 7.75 |
| 8 | 2.75 | 4.00 | 6.75 |
| 9 | 1.75 | 4.00 | 5.75 |
| $10-14$ | 0.75 | 4.00 | 4.75 |
| $15 \&$ over | 0.50 | 4.00 | 4.50 |

PAYROLL GROWTH: 4.00\% per annum, compounded annually.

PRICE INFLATION: 3.50\% per annum, compounded annually.

DEATH AFTER RETIREMENT: The mortality table, for post-retirement mortality, used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table, set back one year for both men and women. Special tables are used for the period after disability retirement. This assumption is used to measure the probabilities of each benefit payment being made after retirement.

VALUATION METHOD: Entry age normal cost method. Entry age is established on an individual basis.

ASSET VALUATION METHOD: Actuarial value, as developed in Schedule A. The actuarial value of assets recognizes a portion of the difference between the market value of assets and the expected market value of assets, based on the assumed valuation rate of return. The amount recognized each year is $25 \%$ of the difference between market value and expected market value. The actuarial value of assets cannot be less than $80 \%$ or more than $120 \%$ of market value.

## SCHEDULE D

## SCHOOL EMPLOYEES RETIREMENT SYSTEM OF OHIO Summary of Benefit and Contribution Provisions as of June 30, 2008

## Contributions for Basic Benefits

## Final Average Salary

## Normal Retirement

Condition for Retirement Members prior to May 14, 2008

Members after May 13, 2008

Amount of Allowance

Members contribute $10 \%$ of pay and employers contribute $14 \%$ of pay. Employer contributions not required to finance basic benefits are allocated to the health care program.

Average annual salary over the member's three highest years of service.

Attainment of age 65 with at least five years of creditable service, or completion of 30 years of creditable service, regardless of age.

Attainment of age 65 with at least ten years of creditable service, or attainment of age 55 with at least 30 years of creditable service.

The annual retirement allowance payable shall not be greater than $100 \%$ of final average salary, and is the greater of:

1. Money Purchase - the greater of:

The sum of:
a. An annuity based on the value of the member's accumulated contributions at retirement
b. A pension equal to the annuity
c. for members prior to May 14, 2008, \$40 multiplied by the member's years of service prior to $9 / 1 / 1937$.
or:
d. For members who have 10 or more years of service credit prior to 10/1/1956, an annual benefit of $\$ 180$.
2. Defined Benefit - the greater of:

The sum of:
a. $2.2 \%$ of final average salary multiplied by the member's years of service up to 30 ,
b. $2.5 \%$ of final average salary multiplied by the member's years of service in excess of 30 ,
or:
c. $\quad \$ 86$ multiplied by the years of service.

## Early Retirement

Condition for Retirement
Members prior to May 14, 2008

Members after May 13, 2008

Amount of Allowance
Members prior to May 14, 2008

Members after May 13, 2008

Not eligible for unreduced service retirement but has attained age 55 with at least 25 years of service, or age 60 with five years of service.

Attainment of age 62 with at least ten years of creditable service, or attainment of age 60 with at least 25 years of creditable service.

Normal retirement allowance accrued to the date of early retirement. The Defined Benefit amount determined above is adjusted by the following percentages based on attained age or years of service:

| Attained <br> Age | Years of Ohio <br> Service Credit |  |  |
| :---: | :---: | :---: | :---: |
| 58 |  | Percentage |  |
| 59 | 25 | $75 \%$ |  |
| 60 | 27 | 80 |  |
| 61 |  | 85 |  |
|  | 28 | 88 |  |
| 62 |  | 90 |  |
| 63 |  | 91 |  |
|  | 29 | 94 |  |
| 64 |  | 95 |  |
|  |  | 97 |  |

Actuarial equivalent of the normal retirement allowance accrued to the date of early retirement. The Defined Benefit amount determined above is actuarially adjusted for the years before age 65 or 30 years of service, whichever is shorter, but in no event is the adjusted benefit less than the following percentages of the Defined Benefit amount based on years of service:

| Years of Ohio <br> Service Credit |  |
| :---: | :---: |
| 25 |  |
| 26 | 80 |
| 27 | 85 |
| 28 | 90 |
| 29 | 95 |

## Disability Retirement

Condition for Retirement

Amount of Allowance

An allowance is paid upon becoming permanently disabled after completion of at least 5 years of total service credit.

1. For those who were active members prior to July 29, 1992 and did not elect the benefit structure outlined below, an allowance based on service to date of disablement, plus, if the age at disablement is less than 60 , continuous service to age 60. The allowance is computed in the same manner as the defined benefit
service retirement allowance, subject to a minimum $30 \%$ of FAS and a maximum of $75 \%$ of FAS. It is payable for life, unless terminated.
2. For those who became active members after July 28, 1992, and for those who were active members prior to July 29, 1992 who so elected, an allowance equal to the greater of (i) $45 \%$ of FAS, or (ii) the lesser of $60 \%$ of FAS, or the allowance computed in the same manner as the defined benefit service retirement allowance. The allowance will continue until:
a. The date the member is granted a service retirement benefit, or
b. The date the allowance is terminated, or
c. $\quad$ The later of the date the member attains age 65 or the date the disability allowance has been paid for the minimum duration in accordance with the following schedule:

Minimum Duration

## Death Benefits Prior to Retirement

## Death While Eligible to Retire

If a member dies in service after becoming eligible to retire with a service allowance and leaves a surviving spouse or other sole dependent beneficiary, the survivor may elect to receive the same amount that would have been paid had the member retired the last day of the month of death and elected the $100 \%$ joint and survivor form of payment.

## Survivor (Death-in-Service) Allowances

Condition for Benefit
Upon the death of a member with at least $1 \frac{1}{2}$ years of Ohio service credit and with at least $1 / 4$ year of Ohio contributing service credit within $21 / 2$ years prior to the date of death, the survivor allowances are payable as follows:

1. Qualified Spouse: A monthly allowance commencing at age 62, except that the benefit is payable immediately if: (1) the qualified deceased member had 10 or more years of Ohio service credit; or (2) is caring for a surviving child, or (3) is incompetent.
2. Qualified Child: An allowance is payable to the qualified child of a deceased member who is under age 18, under age 22 and in school, or incompetent.
3. Qualified Parent's Allowance: A monthly allowance is payable to a dependent parent age 65 or more.

Page 22

Amount of Allowances

Amount of Allowances

## Optional Forms of Benefit

## Post-Retirement Death Benefit

## Post-Retirement Increases

## Medicare Part B

## Re-Employed Retirants

Eligibility Effective

Amount of Allowance

A member upon retirement may elect to receive his allowance in one of the following forms that are computed to be actuarially equivalent to the applicable retirement allowance:

Upon the death of a retiree, $50 \%, 100 \%$, or some other percentage of his reduced retirement allowance shall be continued throughout the life of, and paid to, a designated beneficiary.

A reduced retirement allowance shall be continued throughout the life of the pensioner, but with the further guarantee of payment to the pensioner, his beneficiary or his estate for a specified number of years certain.

A member can select a partial lump-sum option at retirement. Under this option, the partial lump- sum shall not be less than 6 times and not more than 36 times the unreduced monthly benefit, and the monthly benefit will be actuarially reduced. In addition, the monthly benefit payable cannot be less than $50 \%$ of the unreduced amount.

Regardless of the form of benefit selected, a lump sum benefit of $\$ 1,000$ is paid at the death of the retiree.

On each anniversary of the initial date of retirement, the allowances of all retirees and survivors are increased by 3\% of the base benefit.

Each recipient of a service retirement benefit, a disability benefit or a survivor benefit who was credited with at least 10 years of service and is covered under Medicare Part B is reimbursed $\$ 45.50$ per month for premiums for that coverage.

July 1, 1991, service retirees of SERS, or service or disability retirees of one of the other four Ohio retirement systems who are employed in a SERS covered position are required to contribute to a money purchase annuity, a type of defined contribution plan.

Upon termination of employment, a re-employed retirant who has attained age 65 is eligible to receive an annuity based on the amount of his/her accumulated contributions, and an equal amount of employer contributions, plus interest to the effective date of retirement. Effective July 1, 2006 the amount of employer contributions will be determined by the Board. Interest is granted on the reemployed retirant's prior fiscal year account balance, calculated using a rate determined by the SERS Board, compounded annually. The benefit is payable as a lump sum or as an annuity if the amount of such annuity is at least \$25. Upon termination of employment, a re-employed retirant who has not attained age 65 may request a lump sum refund of his/her own contributions; there is no payment of employer contributions or interest.

If a re-employed retirant dies while employed, a lump sum payment of the monthly annuity, discounted to the present
value using the current actuarial assumption rate of intere: will be paid to his beneficiary.

If a re-employed retirant dies while receiving a monthly annuity, a lump sum payment will be made to a beneficiary in an amount equal to the excess, if any, of the lump sum payment the re-employed retirant would have received at the effective date of retirement over the sum of the annuity payments received by the re-employed retirant to the date of death.

Member Contributions

Employer Contributions

Other Benefits

Member Contributions

Each re-employed retirant is required to contribute $10 \%$ of his pay by payroll deductions.

Employer contributions are expressed as percents of member covered payroll. Employers are required to contribute 14\% of payroll.

Re-employed retirants of SERS are not eligible to receive any of the other benefits provided to SERS members.
$10 \%$ of salary.

## SCHEDULE F

## GAIN/LOSS ANALYSIS DETAILS

## COMMENTS

Regular actuarial valuations measure the Retirement System's present financial position and contributions adequacy by calculating and financing the liabilities created by the present benefit program. This process involves discounting to present values the future benefit payments on behalf of present active and retired members and their survivors. However, valuations do not produce information regarding the amount of increases or decreases in unfunded actuarial accrued liabilities (UAAL) -gain/loss analyses do.

The overall gain/loss to the Retirement System is the difference between the actual UAAL and the expected UAAL. A gain/loss analysis shows the breakdown of the overall system gain/loss by economic and non-economic risk areas. The economic risk areas are investment return and pay increases. The non-economic risk areas are service retirement, disability retirement, death in active service, termination (vested and non-vested), retiree mortality, and new members. Gains and losses resulting from data adjustments, timing of financial transactions, etc. are included separately as a miscellaneous item.

It is expected that actual experience will not coincide with assumed experience. It is assumed that gains and losses will be in balance over a period of years, but sizable year to year fluctuations are common. Changes in actuarial assumptions should be made for risk areas when the differences between actual and expected experience are consistently sizable over a period of years. Differences over a relatively short period of time may or may not be indicative of long-term trends, which are the basis of actuarial assumptions.

The actuarial assumptions used in this analysis were adopted by the Board in May 2006.

Any historical information and data shown in the report with a valuation date prior to June 30, 2008 were obtained from the previous actuary's report.

^ Included in "Other" risk area

The market related actuarial value of assets is based on a four-year average of adjusted market value returns. The difference between the actual returns at market value for the year and expected returns is determined. Twenty-five percent (25\%) of that difference is added to the expected value along with corresponding amounts from each of the prior three years.

The actuarial value of assets for the basic benefits as of June 30,2009 was $\$ 9,836,220,633$. The value for the previous year was $\$ 11,372,453,979$.

## SCHEDULE G

## GLOSSARY

Actuarial Accrued Liability. The difference between (i) the actuarial present value of future plan benefits, and (ii) the actuarial present value of future normal cost. Sometimes referred to as "accrued liability" or "past service liability".

Accrued Service. The service credited under the plan which was rendered before the date of the actuarial valuation.

Actuarial Assumptions. Estimates of future plan experience with respect to rates of mortality, disability, turnover, retirement, rate or rates of investment income and salary increases. Decrement assumptions (rates of mortality, disability, turnover and retirement) are generally based on past experience, often modified for projected changes in conditions. Economic assumptions (salary increases and investment income) consist of anderlying rate in an inflation-free environment plus a provision for a long-term average rate of inflation.

Actuarial Cost Method. A mathematical budgeting procedure for allocating the dollar amount of the "actuarial present value of future plan benefits" between the actuarial present value of future normal cost and the actuarial accrued liability. Sometimes referred to as the "actuarial funding method".

Actuarial Equivalent. A series of payments is called an actuarial equivalent of another series of payments if the two series have the same actuarial present value.

Actuarial Present Value. The amount of funds presently required to provide a payment or series of payments in the future. It is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

Amortization. Paying off an interest-bearing liability by means of periodic payments of interest and principal, as opposed to paying it off with a lump sum payment.

Experience Gain (Loss). A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions during the period between two actuarial valuation dates, in accordance with the actuarial cost method being used.

Normal Cost. The annual cost assigned, under the actuarial funding method, to current and subsequent plan years. Sometimes referred to as "current service cost". Any payment toward the unfunded actuarial accrued liability is not part of the normal cost.

Plan Termination Liability. The actuarial present value of future plan benefits based on the assumption that there will be no further accruals for future service and salary. The termination liability will generally be less than the liabilities computed on a "going concern" basis and is not normally determined in a routine actuarial valuation.

Reserve Account. An account used to indicate that funds have been set aside for a specific purpose and are not generally available for other uses.

Unfunded Actuarial Accrued Liability. The difference between the actuarial accrued liability and valuation assets. Sometimes referred to as "unfunded accrued liability".

Valuation Assets. The value of current plan assets recognized for valuation purposes. Generally based on book value plus a portion of unrealized appreciation or depreciation.
