Request for Proposal – Proxy Voting Advisory Firm Questions Submitted to SERS

Question 1: Will SERS be willing to accept an electronic-only submission, rather than the printed copies?

Answer: It has been decided it would be acceptable to provide an electronic-only submission response to the RFP in lieu of printed copies.

Question 2: The RFP identifies specific service requirements pertaining to a Web-based voting platform. Is the needed service limited to application of the policy and ability to retrieve information specific to the fund or is it broader in that you are looking for a platform that is also externally facing that can be used to disseminate information to fund constituents?

Answer: Our service needs for a web-based voting platform are limited to our ability to execute our policy and access information internally. We do not expect to use it for any external facing purpose.
