

Social Security

If you are a SERS retiree who also is eligible for a Social Security benefit, you may be affected by federal law regulating Social Security benefits. As a result, your Social Security benefit may be reduced by either the Government Pension Offset (GPO) or the Windfall Elimination Provision (WEP).

Neither the GPO nor the WEP will reduce your SERS pension. They can affect only your Social Security benefit.

For more detailed information on the GPO and WEP, and how they may affect your specific Social Security benefit, you should contact the Social Security Administration (SSA) by contacting your local office, visiting the SSA website at www.ssa.gov, or by telephone at 800-772-1213. The following is provided only as general information.

The Government Pension Offset (GPO)

First, let's determine if the GPO will affect you.

- The GPO applies to any SERS retiree who first became eligible to retire from SERS after July 1, 1983.
- The GPO applies only to those SERS retirees who receive, or will receive, a Social Security benefit based on *their spouse's* Social Security account.

- This includes surviving spouses qualifying on an ex-spouse's account.
- The GPO does NOT affect Medicare coverage.

Now, let's explore how the GPO works.

- The amount of your Social Security spousal benefit is reduced by two-thirds of the amount of your SERS pension.

For example: Your SERS monthly pension is \$1,200, and you also are entitled to a \$1,000 Social Security spousal benefit. Two-thirds of your SERS pension is \$800 which, when deducted from your Social Security benefit, leaves you with a \$200 Social Security benefit plus your full \$1,200 SERS pension.

- Depending on your gross SERS pension and/or Social Security benefit amount, the GPO could eliminate your Social Security spousal benefit entirely.
- *Please note:* When you receive cost-of-living adjustments or other increases in your SERS pension, you must report these to the SSA. These increases will result in a new GPO calculation and further reduction in your Social Security benefit.

The Windfall Elimination Provision (WEP)

Again, let's first determine if the WEP affects you.

- The WEP affects SERS retirees who receive, or will receive, a Social Security benefit based on *their own* Social Security employment record.
- If you had a private sector job and contributed to Social Security for that job, the WEP may reduce any Social Security benefit you receive based on the private sector job.
- If you have 30 or more *qualified* years of earnings under Social Security, or you were eligible for either your Social Security benefit or SERS pension before 1986, the WEP will not affect your Social Security benefit. Review Chart A to determine what earnings make up a qualified year.

- Review Chart B for the maximum amount your Social Security benefit may be reduced.
- Again, the WEP will NOT reduce your SERS pension.

Now, let's explore how the WEP Works.

- The WEP modifies the formula that the SSA uses in calculating your Social Security benefit depending on the number of years you paid into Social Security.
- *Please note:* You should contact the SSA to determine the effect of the WEP on your Social Security benefit.
- You also can estimate your Social Security benefit using the WEP Online Calculator available at <https://www.ssa.gov/planners/retire/anyPiaWepjs04.html>

* Eligibility Year is the year you reach age 62 or became totally disabled (if earlier). If your birthday is on January 1st, use the year before you reach age 62.

Important: The maximum amount may be overstated. The WEP reduction is limited to one-half of your pension from non-covered employment.

If your retirement benefits start after full retirement age or your non-covered pension starts later than your eligibility year, the WEP reduction may be greater than the maximum shown in the chart.
