

# HOW TO: Manage Payroll Schedules for a Three-week Pay Period

Occasionally, a school district that pays on a biweekly pay cycle, has a three-week pay period. This happens every few years in order to reset the pay periods. These pay periods are reflected through their school district's pay schedules.

Districts are now able to edit their payroll schedules to add a line for the three-week period and then extend a biweekly schedule from there without having to create a new schedule.

**In order to manage a payroll schedule that needs a three-week cycle added, you must complete a number of steps.**

If you are a district that has populated the payroll schedule and the three-week cycle needs to be added in the middle of the schedule, please call Employer Services so that we can delete the rows necessary to add the three-week cycle.

Below are the steps for managing a payroll schedule that needs a three-week cycle added:

1. Open the payroll schedule that needs the three-week cycle added, and click the **Payroll Schedule ID**.
